LOCAL LAW NO. 5 OF 2024**

**A LOCAL LAW AMENDING CHAPTER 62 OF
THE VILLAGE CODE REGARDING INSTALLATION,
REPAIR AND MAINTENANCE OF WATER SERVICE**

Be it enacted by the Board of Trustees of the Village of Port Dickinson as follows:

Section 1. Section 62-4E of the Village Code entitled “Installation, repair and maintenance of water service” shall be replaced entirely as follows:

E. The property owner may choose to install, at his/her/its own expense, a meter pit at a depth and standard of construction as specified by the Commissioner of Water and Sewer. The service line between the curb box and such meter pit or, if no meter pit is installed, between the curb box and the building, shall be of Type K copper tubing of the required minimum inside diameter. If a meter pit is installed, then the service line between such meter pit and the building shall be of CTS Blu plastic tubing of the required minimum inside diameter. On the inside of the building an approved stop and waste valve shall be installed where the service line enters. The installation of the service line shall be at an elevation of five (5) feet below grade and shall be left exposed until inspected by the Water Operator, Code Enforcement Officer, and/or Village Engineer and, if satisfactory, connection to the main will be completed. Upon completion of grading the curb box shall be at grade for access at all times.
